Getting Started with the GCMA Advanced Management Programme

The GCMA Advanced Management Programme is designed to provide an **accessible and flexible learning and development environment for anyone involved in Golf Club Management** and those aspiring for a career in Golf Club Management in the future.

The programme contains **11 individual deep dive, practical learning experiences**, each one providing you with in-depth skills and knowledge on one of the key topics that will support you in developing as a highly effective Manager and Leader.

Each Certificate involves a 2 or 3 day in person interactive learning and development experience, delivered by expert providers in their field

You choose the topics most **suitable to you**, based on your learning and development requirements. If you're a more experienced Golf Club Manager, then just focus on the areas where you're less experienced and would like to further your skills and knowledge.

If you're earlier on in your journey within the industry, then this programme provides you with learning experiences to cover all of the skills and knowledge that you'll need within your career, help you to progress and map out your journey to success.

New to Golf Club Management? To get you started, we recommend the GCMA Principles of Golf Club Management programme

If you have not yet undertaken any specific training or development in Golf Club Management, we recommend you get started with our Principles of Golf Club Management course as an introduction and stepping stone towards the GCMA Advanced Management Programme.
